Innovative, practical and high quality modular building for construction sites

As an experienced contractor of temporary modular buildings for construction sites, ABC Pavilloner is capable of providing accommodation and personnel modules for a large amount of individuals.

Many years of experience within the field has resulted in effective processes with regard to manufacturing, our well-known, high standards.

ENVIRONMENT,
NATURE AND
CLIMATE IS AN
IMPORTANT PART
OF OUR SOCIAL
RESPONSIBILITY.

WE AS
COMPANY WORKS
TO MINIMIZE
ENVIRONMENTAL
IMPACT

The right conditions - Equals efficiency – That's common sense

DURING CONSTRUCTION OF A LARGE-SCALE PROJEKT, FOR EXAMPLE THE FEMERN BELT, IT IS IMPORTANT THAT PROPER FACILITIES ARE ESTABLISHED FOR THE WORKFORCE, BOTH DURING AND OUTSIDE WORKING HOURS.

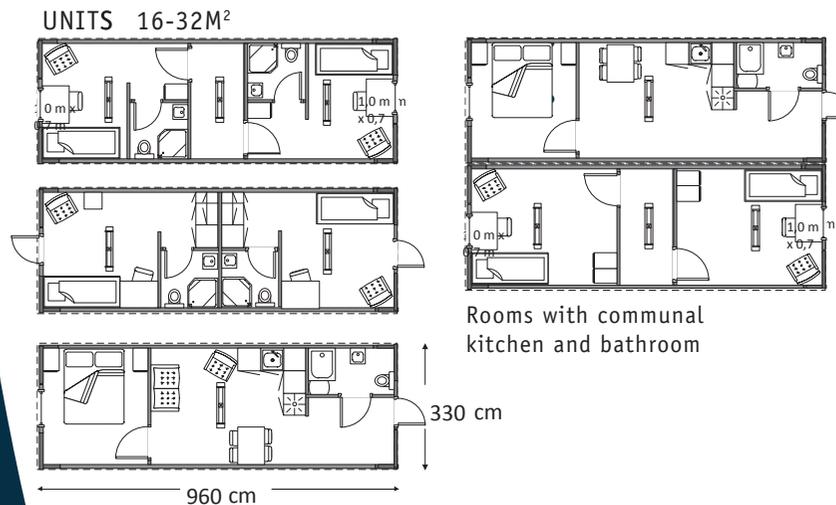

At ABC Pavillon, we are experts in finding the right solutions for our customers. Our knowledge and understanding of modular building for construction sites ensures the most optimal and secure conditions for our customers. We have previously delivered personnel modules to some of the largest construction sites in Denmark. Among these, ABC Pavillon has provided 10,000 m² of personnel modules for the construction site at Skejby Universitetshospital.

WITH THE ABC PAVILLONERS
MODULES YOU ARE GUARANTEED:

- A MODULE WITH A GOOD INDOOR CLIMATE
- A MODULE WITH LOW ENERGY USE
- A MODULE WHERE THE QUALITY IS IN ORDER
- A MODULE WHERE ENVIRONMENTAL IMPACT IS LIMITED
- A MODULE IN WHICH THE USE OF UNHEALTHY SUBSTANCES IS LIMITED
- FULFILLS DANISH BUILDING REGULATIONS BR18

Examples of housing solutions for employees

ABCPAVILLONER'S TRADEMARK

ABC Pavilloner is known for its **INNOVATIVE** solutions, and our team of experts are always ready to develop customised solutions for you. We strive to provide the best possible **SERVICE** for our customers and to offer **HIGH QUALITY** products created by skilled professionals using the best materials.

In short, ABC Pavilloner possesses the necessary expertise, knowledge and capacity to provide accommodation modules for housing areas at the construction site for Femern.

Construction site – DNU Skejby

In order to provide the best possible service for our customers, we have our own team of authorised electricians, plumbers and sewerage contractors, including our own construction managers and structural engineers. This ensures a streamlining of the entire process – from planning to manufacturing and all the way to the delivery of the finished module.

We Create Context

GOOD CONDITIONS FOR EMPLOYEES PROVIDES GOOD WORKING ENVIRONMENT

To ensure that ABC Pavilloner is able to meet the requirements for demand and deadlines, we have production facilities in both Denmark and Lithuania. This enables us to produce and deliver a greater amount of modules, within a relatively short period of time. Our unique manufacturing process involves 90% of every module being assembled in our factories, meaning that only the

last few details need to be completed, when the module reaches the construction site. This process ensures efficiency and the quality of our modules, including the elimination of the risk of moisture damage upon delivery.
